Below is a list of flowers I hope to use in your wedding arrangements based on information you've provided and a look into your Pinterest board. While not every flower in this list is guaranteed, I will do my absolute best to follow this floral plan.

- Playa blanca roses would be beautiful focal flowers.
- White delphinium would make gorgeous accent flowers and add height to the installations.
- Majolika spray roses and dried lunaria would be wonderful accent flowers.
- I envision filler flowers and greenery such as babies breath, stipa grass, olive, and bleached amaranthus in your arrangements.

Playa Blanca Roses

White Delphinium

White Ranunculus

Preserved Lunaria

Preserved Babies Breath

Hanging Bleached Amaranthus

Stipa Grass

Preserved Fern

Thank you for taking the time to view your hand crafted proposal and dream with me. I hope to have the opportunity to make this floral vision come to life.
